Book and every description of Commercial and
Law printing, in the best manner at Gazette Job
Rooms.

The Republican Ticket

CONGRESSIONAL

First District—
CHAS. G. WILLIAMS, of Rock.
Second District—
L. B. CASWELL, of Jefferson.
Third District—
GEORGE HAZELTON, of Grant.
Fourth District—
L. F. FRISBY, of Washington.
Fifth District—
MARIA A. SMITH, of Sheboygan.
Sixth District—
J. V. JONES, of Winnebago.
Seventh District—
H. L. HUMPHREY, of St. Croix.
Eighth District—
THAD. C. POUND, of Chippewa.

SENATORIAL

For State Senator—Seventeenth District—
MARION L. RICHARDSON,
of Janesville.

ASSEMBLY

First District—
R. J. BURDGE, of Newark.
Third District—
WILLIAM GARDNER, of Bradford.

COUNTY TICKET

For Sheriff—
JOHN J. CONSTOCK, of Janesville.
For Register of Deeds—
CHARLES L. VALENTINE,
of Janesville.
For County Treasurer—
WILLIS MILES, Town of Janesville.
For County Clerk—
SYLVESTER MORGAN, of Lima.
For District Attorney—
JOHN W. SALE, of Janesville.
For Clerk of the Court—
A. W. BAKER, of Milton.
For County Surveyor—
EDWARD RUGER, of Janesville.
For Coroner—
WILLIAM TAYLOR, of Fulton.

ASSEMBLY CONVENTION.

SECOND DISTRICT.
A Republican Convention of the Second As-
sembly District in the County of Rock, comprised
of the City of Janesville, and the towns of Janes-
ville and Rock, is hereby called to meet at the
Common Council room, in the city of Janesville
on Monday, the 23rd day of October, instant, at
two o'clock p. m., for the purpose of nominating
a candidate for member of the Assembly, for said
district. The wards and towns will be entitled
to the following representations:
First ward.....1
Second ward.....1
Third ward.....1
Fourth ward.....1
Fifth ward.....1
Town of Janesville.....1
Town of Rock.....1

A. A. JACKSON,
W. T. VANKIRK,
A. B. BAXTER,
JOHN BERNIE,
H. O. BAKER,
S. E. OTIS,
District Committee.

CITY CAUCUSES

The Republican electors of the several wards
of the City of Janesville, are requested to meet
on Saturday evening, October 26th, at 7 o'clock
for the purpose of electing delegates to represent
said wards in the Second Assembly District Con-
vention, to be held at the rooms of the City Coun-
cil, October 28th, at 2 o'clock p. m. The caucuses
will be held at the following places:
First ward—At Engine House.
Second ward—At Engine House.
Third ward—At Court House.
Fourth ward—At Council Chamber.
Fifth ward—At Luther Clark's Carpenter
Shop.

By Order of Ward Committees.
There has been a strong political com-
bination formed in New York, consisting
of the Republicans and the Anti-Tamman-
Democrats. They have nominated
Edward Cooper for Mayor, and the
chances are that he will be elected.

Mr. Spofford, Librarian of Congress, has
written an article on the necessity of a new
building for the rapidly increasing library
under his charge, giving a history of the
origin and growth of the Library. The
article will appear in the November-De-
cember number of the International Re-
view.

Hon. E. D. Holt, of Milwaukee, who,
up to 1876, had been a staunch Republi-
can, is doing the party good service by
speaking in favor of a sound currency and
reimbursement. He became dissatisfied with
the party in 1876, and went after Tilden.
He is heartily ashamed of his political ac-
tion two years ago, has repented, and is
now doing the honest money cause good
service by his speeches.

Reconciliation works in this way:
"When a Republican of spirit enters a
complaint in South Carolina against a bul-
dazing Democrat, the Republican is ar-
rested on a trumped-up charge, and con-
demned in jail until he consents to withdraw
the complaint. The Democrats count this
one of the smartest tricks of their cam-
paign." This is "local self-government"
brought down to perfection.

Bob Ingersoll is delivering his new lec-
ture, "The Hard Times." He deliv-
ered it in Music Hall, Boston, last week
which was completely packed with people.
One of Bob's characteristic sentences was
this: "Upon the faces of patriots has fallen
the freight of home. Very few men in
this country have the patriotism to should-
er a market in defense of a boarding
house. Then another: 'Extravagance is the
providence of the poor. When the poor
are economical and the rich man is
extravagant, there is prosperity.'"

The Evening Wisconsin makes this re-
mark: "It is some days since the Hon.
Chas. H. Parker, Greenback and Demo-
cratic candidate for Congress in the First
District, has adopted a new platform. In
fact he has only adopted three thus far: A
Greenback platform, a Democratic plat-
form, and a Doolittle platform. He keeps
one foot on the Greenback structure, the
other on the Democratic contrivance, and
reposes the base of his spinal column on

THE JANESVILLE GAZETTE.

VOLUME 22

JANESVILLE, WISCONSIN, FRIDAY, OCTOBER 25, 1878.

NUMBER 197

The Doolittle invention. How can a man
be expected to run well in such a posture?
Oh, Parker don't expect to run. He is
taking Stewart around for amusement. He
don't pretend that he is running for Con-
gress and the vote will show that Mr. Par-
ker is right.

Young Doolittle, who thinks he is run-
ning for Congress in Chicago, is almost as
cunning as the old man. He wanted to
draw good houses when he spoke in the
First District in that city, and therefore
challenged Mr. Aldrich to a joint discus-
sion, a plan, which if it worked, would give
Young Jim a good audience at the expense
of the Republican candidate. Aldrich saw
the point at once and refused to lend his
personal influence in drawing a crowd for
Doolittle, and therefore declined the invita-
tion to discuss with him. Jimmy said
call on his father to introduce him to the
folks in Chicago, if he can't get Aldrich.
If he is so anxious to discuss, why don't
he challenge the old man, the latter can
discuss one side as well as another. The
novelty of the arrangement would draw a
crowd, probably, and Jimmy would thus
get a hearing.

A Dog That Held The Fort.

When the limited express on the Penn-
sylvania Railroad stopped at Newark, re-
cently, a rough looking fellow entered the
train with a powerful and savage looking
mastiff. He placed the animal in the bag-
gage car, and then he came to the car
corner, and the baggage master to allow
no one to approach him. He then re-
turned to smoke. After the train left
Newark the baggage master had occasion
to pass through the car, but had no other
opened the door than the dog sprang at
him, snapping his chain around the
baggage master's neck. The baggage master
retired precipitately, and did not venture
into the car again. Conductor Brown then
attempted to pull through to the passenger
car, but the dog sprang at him too, and
dropping his lantern, Brown closed the
door. The brute again he pulled the
bell rope, bringing the cars to a stand-
still and jumped off, walked along the
track to the passenger cars. The owner of
the dog, when told that the animal had
broken loose, politely informed the rail-
road men that he would not be responsible
for him. When the train reached the
Jersey City depot the employees secured
the animal in a corner behind a number of
trunks, and lassoing him securely handed
him over to the owner, to the great relief
of the passengers, many of whom were
afraid to leave their seats. —New York
Herald.

A Moment of Terror.

Henry Faxon, of Buffalo, is said never
to have recovered from a fright that Blon-
din gave him, his nervous system receiving
a lasting shock. Blondin was about to
start on one of his walks on a rope across
the chasm below Niagara Falls. Faxon
stood laughing and jesting on the edge
of the precipice overlooking
the river one hundred
and forty feet below. Blondin, motioning to
the bystanders that he would not be in-
jured, leaped from behind, and fell under
both arms from behind, and held him
for a second or two over the verge.
Faxon's countenance when Blondin laid
hold of him was irradiated with mirth.
When Blondin drew him back and
dropped him on the green grass,
Faxon was in a heap, and fell back. In the
next instant, Blondin, grasping his heavy
balancing-pole, danced out on his rope be-
yond the precipice, and turning to en-
joy the effect of his maneuver, saluted his
collapsed friend with a comical gesture.

Colonel Daniels, formerly of this State,
now of Virginia, has come out for paper,
money, and is making speeches in favor
of that cause throughout the country. The
Alexandria Gazette, noting this fact, says:
Greenbackism, as every other ism, is pos-
sible in New England, and with gentlemen
from the North like Colonel Daniels; but
how people who have had experience with
Confederate money can favor an unlimited
and irredeemable currency is hard to un-
derstand.

Mr. Moody's Future Work.

Mr. Moody weighs 340 pounds, having
gained fifty-five pounds in five years. He
will winter in Baltimore, studying for
next year. He will return Mr. Sankey after
year. He hopes to make his home at
some future time in Chicago.

Well-Toned Systems.

Systems toned and renovated with Hostetter's
Stomach Bitters are most effectively defended
from disease. That supreme invigorant soon
overcomes that distressing feebleness consequent
upon ailments which impoverish the blood and
relax the muscles. Vigor, appetite, sleep returns
to the wasted frame, and every physical faculty
gains greater activity through its benign influ-
ence. Not in this all, for the Bitters have a most
genial and cheering effect upon the mind of the
despondent invalid, which is the natural effect
of the increased bodily vitality which they pro-
duce. Nervous symptoms disappear in conse-
quence of the use of this medicine, and the evil
consequences result from a premature decay
of the physical energies are averted. Dys-
pepsia, liver complaint, rheumatic ailments,
stomach and intestinal irregularities, malarial dis-
eases, and many other disordered conditions of
the system, are remedied by the Bitters.

Use nothing but Hostetter's Bitters, from
old Minnesota wheat, if you want good
food.

Is Baldness or a Deficiency of Hair
Exists, or if the hair is gray, dry or harsh,
the natural youthful color can be restored by using
"London Hair Color Restorer," the most deli-
cious article ever introduced to the American
people for increasing its growth, restoring its nat-
ural color, and at the same time a lovely hair dress-
ing and beautifier. It is totally different from all
others, not sticky or gummy, and free from all
impure ingredients that render many other arti-
cles objectionable; in fact it is elegantly perfumed
and so clearly and elegantly prepared as to make
the last hair dressing and toilet luxury.

J. A. YIMES, A PROMINENT CITIZEN.
Wm. H. G. writes: Some ten years ago my
wife's hair commenced falling, and got very thin
and faded; but after using "London Hair
Color Restorer" the scalp became healthy, the
hair stopped falling, the color was restored, and
is now growing beautifully.
Ask your druggist for London Hair Color Restor-
er. Price, 75 cents a bottle. Six bottles, \$4.
Main Depot for W. H. G. 330 North Sixth St.,
Philadelphia.

THE NEW ELECTRIC LIGHT.

Edison at Last Describes It—And
Says It Will Answer Every Re-
quirement, and Be Cheaper than
Gas.

Edison's electric light was made the butt
of ridicule by the American Gas-Light
Association members who met here this
week, and the great invention was sought
out to-day to see what it was like. I in-
quired, "Are you positive?" I inquired,
"that you have found a light that will take
the place of gas, and be much cheaper to
consume?"
"There can be no doubt about it," he re-
plied.
"It is an electric light?" I asked.
"It is," he answered, "electricity and
nothing else."
He said that an electric light was no new
discovery, and he only claimed that he had
found out how to utilize it. His first ex-
periments were made long ago. He spent
a month trying to discover a light that
would take the place of gas, but with little
success, and finally gave it up. After his
removal to Menlo Park he made his own
gas, and the trouble with the electric light
was, it could not be subdivided. "I worked
hard on it, however," he said, "and then
I discovered the necessary secret, so simple
that a bootblack could understand it." It
suddenly came to me, the same as the secret of the speaking phono-
graph. It was real, and no phantom. I
was sure that it would work as I was
that the phonograph would work. I made
my first machine. It was a success. Since
then I have made nearly a dozen machines,
each different, and the last ones improve-
ments upon those first made. The subdivi-
sion of the light is all right. The only
thing to be accurately determined is its
economy. I am already positive that it will
be cheaper than gas, but I have not deter-
mined how much cheaper. To determine
its economy I am now putting up a brick
building back of my laboratory here. I
have already ordered two eighty-horse
power engines for this building, with which
to make the electricity. We use no bat-
teries. We simply turn the power of steam
into electricity, and the greater steam power
we obtain the more electricity we get. I
have already told you that electric lights
have had marked intensity and a low quantity
of light as far as possible. It requires
a good deal of experimenting
to ascertain how far this can be done. You
alter the nature of the electric light when
this is done. I have already done it to a
certain extent, and I don't think that it
was ever before attempted on the line on
which I am at work.

On being questioned concerning the
articles of incorporation of the Edison
Electric Light Company, Mr. Edison said
that he proposed to light the city, public
buildings, and private residences with
electric lights. The electric light will be
made by twenty or more engines, station-
ed in different parts of the city. "We
could lay the wires right through the gas-
pipes, and bring them into houses. All
that will be necessary will be to remove
the gas-burners, and substitute electric
burners. The light can be regulated by a
screw, the same as gas. You may have a
bright light or not, as you please, and you
can shut it off at any time. No match is
needed to light it. You turn a cock the
electric connection is made, the platinum burner
catches a proper degree of heat, and there is
your light. There is neither blaze nor
flame, and there is no smothering nor flick-
ering. I don't pretend that it will give a
much better light than gas, but it will be
whiter and steadier than any known light.
I do know now that it will be cheaper
than gas. It will give a better light than
any known light. No match is needed to
light it. The light can be regulated by a
screw, the same as gas. You may have a
bright light or not, as you please, and you
can shut it off at any time. No match is
needed to light it. You turn a cock the

Democrats and Flatists suppose that Mr. Lee hastened to a surgeon to have his limb cut off. But, of course, he is an ultra Iowa Republican. In fact, he is like three-quarters of the Republicans in this State, and would run the risk of breaking his neck three times in a week for the sake of hearing Prince Jim, of the Dringo Principality. So he got up, mounted the store box, and his broken arm for an hour and a half, until Mr. Blaine finished his speech, then he walked down to Dr. Ward's office and had the fracture fixed. Mr. Lee is doing well. Dr. Ward came here last Saturday to dress the limb, and after he had finished the job he sat down in the News office and told us the incident.

Puncturing Gillette's Romance.
Des Moines (Iowa) Register: By an article copied on the first page today it will be seen that the lily-handed Gillette, who never did a day's work of manual labor in his life, is being heralded through the East as the Bricklayering Congressman. And it seems that his own father is circulating the story, and with a still greater story as told him by his son, of how he made the canvass without money, and how he made his campaign expenses by selling books and newspapers at his meetings. Here, where it is well known that Gillette lives in as much style and luxury as any man in Des Moines, and where he has to his two \$4000 mortgages to provide funds for the campaign, are equally well known, these stories sent East by Mr. Gillette as to brick-layering and poverty will excite no little amusement.

TO OUR READERS.

Owing to the funeral of Charles A. Colvin, which is to be held this afternoon, the Gazette is issued to-day at noon, instead of evening, to give those connected with the office an opportunity to pay their tribute of respect to the memory of him to whom they were bound by such strong ties of friendship and esteem. Our readers will therefore bear with us for not being able to furnish them our usual amount of telegraphic and local news.

BRIEFLETS.

—Doolittle speaks to-night.
—Sheriff Colley has 30 boarders now.
—Remember the Republican caucus Saturday night.
—Hon. H. A. Patterson is gradually improving in health.
—J. S. Johnson is back again from a four weeks' trip to the East.
—Thomas Mahon has again taken up his residence in Janesville.
—The usual service at Christ church will be omitted this afternoon.
—To-morrow evening Hon. C. G. Williams will speak at Lappin's hall.
—Beloit has added four more to the numbers at the jail. Drunks and rags.
—The Temple of Honor will elect officers this evening, and all members should be present.
—Myatt H. Graves, of Evansville, was in the city yesterday looking after his law business.
—A complaint has been lodged against Fred Scheritsaw, for selling intoxicants at his Farmers' hotel, on Sunday.
—Robert Hamilton has returned from Chicago, where he has been in the employ of the Western Union Telegraph Company.
—Mrs. A. K. Norris and daughters have concluded their visit at Madison, and will after spending a few days in this city, leave for Texas, where they will spend the winter.

—Burglars are reported as working in various towns in the State. Now is the time to keep the doors and windows locked, instead of waiting until after the thieves break through and steal.

—The Janesville Veterans are working like bees sitting up their army and are doing the work themselves which is a commendable indication of economy. A neat room has been fitted up for the arms, and other improvements are being made to render their headquarters pleasant and commodious.

—A well dressed stranger claiming to hail from St. Louis, was so full of gin last night as to be boisterous, and stepping into Stearns' drug-store, he commenced hurling epithets and had to be quieted by officer Osgood who led him down to the cooler. He gave his name as Hall, and proved to be dead broke.

—As will be seen by the call given in this issue, the Republican caucuses for choosing delegates to the Convention of the Second Assembly District will be held Saturday night. By a prompt and full attendance the business can be speedily transacted, and adjournment taken in time to hear Mr. Williams, at Lappin's hall.

—John Dole has been sent up from Beloit for Sheriff Colley to take care of for sixty days, one-third of which time is to be spent in solitary confinement, and the balance in hard work. He is a hard one, and when arrested was found to be armed with a jummy, a razor, and other implements for breaking the peace. He will have little chance to use them for a while.

—The Janesville Commandery of Knight Templars had a pleasant gathering last night. After the formal business of the evening was over, the Knights gathered about the banquet board and indulged in a season of jovial sociability. The Commandery is one of the most prosperous organizations in the State, and is steadily increasing in numbers. The banquet spread by them last night was very attractive and bountiful, and reflected great credit on John Dyer who had charge of the arrangements.

—It seems as though it was about time that steps were taken to clean out the tramps who are hovering about the state line on the Illinois side, and who have for several weeks been plundering and robbing in Beloit. Two of them come across the line, steal and beg, and then run back again and laugh at the inability of the authorities to do anything with them. A few have been captured but the depredations have extended over a period of two or three weeks, and promise to continue for some time to come.

—Many here will remember a man who goes by the name of "Brother Henricus," and who was here a short time ago soliciting contributions for some Catholic society. He is said to be strictly honest and law-abiding in all respects, but is of such eccentric manners that many suppose he is not exactly level-headed. The Chicago Times contains the following concerning him, from Jackson, Mich.: "A man who said he was Rev. Brother Henricus, and who was collecting money for a Chicago Catholic church, struck Jackson one day last week. He got one night in the cooler, \$30 in cash, and a black eye."

A KNOCK-DOWN AND A STAB.

"Dock" West, of Clinton, as he is familiarly called, was in the city Monday last as a witness in the case of the State vs. Snyder, in which the defendant was charged with selling liquor without a license. In the evening of that day as he was walking along near the Myers house with a friend, some one came up from behind and knocked him down, and before he could fully recover his standing, he was again knocked down. He received a third hit on the head making it all; three bad scalp wounds from which the blood flowed freely. He then tried to draw his revolver, as his assailants, numbering two or three, came for him again, but failing in this he drew from his coat pocket a sort of lance used by horse doctors, and grabbing one of the assailants by the leg, he stabbed him in the side with his little weapon, probably tapping a little blood and causing the wound.

ed man to turn and skip, followed by his fellows. West got his scalp patched up, and found himself not as badly hurt as he at first thought. He claims to know the parties and proposes to commence prosecution against them.

THE LAST SAD RITES.

The funeral of Julius Sherrer yesterday afternoon caused St. Patrick's church to be literally packed with sympathizing friends, it being doubtless one of the largest gatherings ever held within the walls of that church. The church was beautifully decorated with flowers, as was also the casket upon which rested a large cross of tuberoses, and a wreath in the center of which were the words "At Rest." A crown, cross and anchor were also among the floral decorations, and the casket itself rested on a catafalque also beautifully adorned.

The services were very impressive. Mrs. St. John sang most touchingly the solo, "Angels ever bright and fair," and Miss Ada Pond rendered an appropriate selection on the organ. Father Doyle based his remarks on the text "I shall come at a time when ye least expect me." He spoke in great tenderness of the sad calamity which had befallen the deceased and his comrades, and drew such lessons from the event as seemed appropriate, and offered such consolation to the mourning ones as could only be given from the sacred desk.

WILLIAMS TO-MORROW NIGHT.

Hon. C. G. Williams will speak at Lappin's hall to-morrow evening. The simple announcement where Mr. Williams is so widely and popularly known, will be sufficient to insure for him a large audience. There has been a general desire felt here, to hear what he has to say on the political and financial questions of the present campaign, and the opportunity thus afforded will be improved by not only Republicans, but men of every shade of political belief. The ladies too will doubtless attend in large numbers, as they are included in the invitation. It is needless perhaps to say that Mr. Williams is one of the most pleasing speakers to whom a Janesville audience ever has the pleasure of listening, and all should improve the chance to hear the logical views of one who is thoroughly posted on the subjects on which he speaks.

A QUEER CASE.

Some months ago a house and contents were burned not a great distance from this city, and no clue was obtained as to the cause of the fire. The family have since removed their residence to another town in this State, and yesterday a letter was received purporting to be from the man whose house was burned, saying that he had clear proof that his wife had set fire to the house, and wanting some officer from here to go there and arrest her on the charge of incendiarism. An officer accordingly started from here yesterday afternoon to learn the truth of the assertion, and, if it seemed advisable, to arrest the woman. It is a little strange that the husband should thus accuse his own wife, and there may be some family trouble or other cause which has led him to make the charge.

A SUDDEN DEATH.

The following further particulars concerning the death of Mrs. Dr. George Horne, whose husband is a son of Dr. Horne, of this city, are gleaned from the Appleton Post:

Mrs. Dr. Horne died very suddenly on Monday morning last. When she got up in the morning, she felt usually well, and ate a hearty breakfast. Only a few minutes afterwards, when walking through the house, she fell upon the floor, and in twenty minutes she was dead. The cause was probably heart disease.

CITY NOTICES.

The Circassian Women
Are considered to be most beautiful. Endowed bachelors butterfly, have you ever seen a Circassian belle? Fly at once to that wondrous clime, and you will learn that the secret of much of their beauty lies in the liberal use of Sordont, which was introduced there years ago to make their teeth beautiful.

"It is handy to have about the house,"
Toodles said. So is Spalding's Glue.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want. dec1dec3w

Horne & Hodson's old Minnesota
wheat flour better than St. Louis winter wheat. oct11dec3w

"The First Dose Gives Relief."
Trial Bottles Dr. Swayne's Compound Syrup of Wild Cherry, 25 Cents.

The distressing cough, which threatened serious results, is quickly cured before developing a fatal pulmonary affection. For all throat, breast and lung disorders, Asthmatic or Bronchial affections, Hooping Cough, Liver Complaint, Blood Spitting, &c, no remedy is so prompt and effective as "Dr. Swayne's Compound Syrup of Wild Cherry."

"I have made use of this preparation for many years, and it has proved to be very reliable and efficacious in the treatment of severe and long standing coughs. I know of two patients, now in comfortable health, and who but for its use I consider would not now be well."
ISAAC S. HERBERT, M.D.,
Stratonsburg, Berks county, Pa.
Price:—Trial bottles, 35 cents; large size, \$1, or six for \$5. A single 15 cent bottle will oftentimes cure a cough or cold, and thus prevent much suffering and risk of life. Prepared only by Dr. Swayne & Son, Philadelphia. Sold by leading Druggists. jysdec3w

Use nothing but Hodson's Best, form old Minnesota wheat, if you want good flour. oct11dec3w

A Pardonable Pride
Prompts most people to delay, by any laudable means that science affords, the evidence of physical decay. Who that is in perfect health would not match the bright eye, the active mind, and other appearances of youthful vigor, with the luxuriance, the rich color, and beauty of youthful hair? Parker's Hair Balm stands pre-eminent as an elegant hair dressing, and by its healthful action on the roots not only promotes a luxuriant growth of the young hair, but unfailingly restores gray or faded hair to the original youthful color, giving a soft, rich and lustrous appearance of great beauty. No other preparation so effectively removes Dandruff or stops falling of the hair; its cooling and healing action entirely curing itching and humors of the scalp, and keeping the skin clean, white and healthy. It is perfectly harmless, exquisitely perfumed, and contains nothing that will soil the skin or gum the hair. It is not a dye, and is unequalled for excellence and purity. Buy a bottle from your druggist, A. J. Roberts, and test its merits. jysdec3w

COMMERCIAL.

BAKING POWDER.

PEARL BAKING POWDER

We have left a FREE SAMPLE of the celebrated Pearl Baking Powder at every house. If the citizens will give it a trial they will never use any other. PERFECTLY PURE. Can be had at any leading grocery store in the place. Wisconsin's eminent chemist, G. Bode, uses it in his own family, as his recommendation is on every can. Try it. We also offer

\$1000

REWARD, if any adulteration can be found in our Spices and Herbs branded PURE. If you don't want to INJURE your health by using IMPURE GOODS, insist on your grocer sending ours.
